SUMMARY

Statistics graduate with a B.Sc. and M.Sc. in Statistics from the University of Barishal, with strong analytical, numerical, and problem-solving abilities. Proficient in Microsoft Excel, R, SPSS, Python, MS Word, and PowerPoint, with knowledge of data analysis, statistical modeling, data management, and reporting. Currently pursuing additional training in Advanced Excel, Power BI, SQL, and Python to strengthen practical data-analysis and business intelligence skills.

EDUCATION

B.Sc. in Statistics
University of Barishal
Passing Year : 2023
CGPA of 3.33/4.00

M.Sc. in Statistics
University of Barishal
Passing Year : 2024
CGPA of 3.61/4.00

LANGUAGE

- Bangla
- English

EXPERIENCE

Fresher

TRAINING & CERTIFICATIONS

Basic Computer Training Course
Global IT Institute & Computer Training Center, Barishal
01 January 2024 – 30 July 2024 |
Result: A+

Currently Developing : Advanced Excel, Power BI, SQL & Python Data Analysis

TutorialsPoint BD

- Dashboard Design & Development
- Advanced Excel Functions & Pivot Tables
- Power BI Reporting & Interactive Dashboards
- SQL Data Querying
- Python-based Data Analysis

SKILL

- **Microsoft Excel**

  Data cleaning and formatting, sorting and filtering, data validation, formulas and functions (IF, SUMIFS, COUNTIFS, AVERAGEIFS), XLOOKUP/VLOOKUP, Pivot Tables, Pivot Charts, Conditional Formatting, KPI analysis, data visualization, and dashboard development.

- **R Programming**

  Data cleaning and preprocessing, data manipulation, descriptive statistics, statistical testing, regression analysis, time-series analysis, ARIMA/ARIMAX modeling, ARDL and ECM analysis, forecasting, data visualization, and statistical reporting.

- **SPSS**

  Data entry and management, data cleaning, descriptive statistics, cross-tabulation, hypothesis testing, chi-square tests, correlation analysis, regression analysis, logistic regression, odds ratio analysis, and interpretation of statistical results.

- **Python**

  Data manipulation and preprocessing, exploratory data analysis, statistical calculations, data visualization, basic data analysis using Pandas and NumPy, and working with structured datasets.

- **MS Access**

  Database creation and management, table design, data entry, sorting and filtering, queries, relationships, and basic database reporting.

- **MS Word**

  Professional document preparation, formatting, report writing, table creation, page layout, referencing, and preparation of academic and professional reports.

- **MS PowerPoint**

  Professional presentation design, data visualization, charts and tables, slide formatting, and preparation of academic and business presentations.
